COMPANY PROFILE

LOOKING FOR THE IDEAL MEASUREMENT SYSTEM FOR YOUR APPLICATION?

LOOKING TO ENHANCE YOUR MEASUREMENT PROCESS?

We can help you find reliable and accurate measurement system for your application.

WORRIED THAT YOUR INDUSTRIAL SYSTEMS ARE NOT EFFICIENT?

We can help you identify performance issues and assist with predictive maintenance

INTERESTED IN AUTOMATING YOUR COMMUNICATIONS?

Our wireless telemetry solutions improve the way your valuable measurement data is

ABOUT US

Flowline Instruments was founded in early 2000's with our passion for automation, sensor intelligence & measurement systems. Our aim is to help people and businesses achieve maximum productivity and efficiency out of their industrial processes and systems.

Regardless of your industry, its critical to use the right detecting, measuring or sensing technology for each application, our industry experts can help you in making the right decision.

We are focused in:

Liquid and Gas Flow Meters

Pumping Solutions

PLC interfaces and migration solutions

HMI / SCADA Visualization, LV, MCC, VFD Panels

RTU Telemetry Solutions

Water Purification Systems (RO)

Fluid Control & Leak Detection Systems

Factory Automation

Technical Services, Repair & Rental Solutions.

Get in touch for our comprehensive offering of solutions and services

FINDING THE IDEAL TECHNICAL SOLUTION FOR YOU AND YOUR BUSINESS

FLUID CONTROL & LEAK DETECTION SYSTEMS

Measurement & Control of fluids is one of the primary focal points in industrial automation. Our range of Fluid Control products such as Valves, Actuators, Flow Meters, Indicators & Switches, and Leak Detection systems are suitable for all liquid & gas applications. If you seek a reliable technical solution, we have the right product for every fluidic application.

FACTORY AUTOMATION

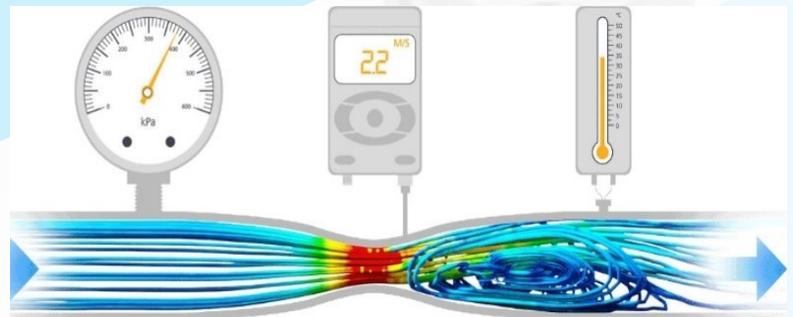

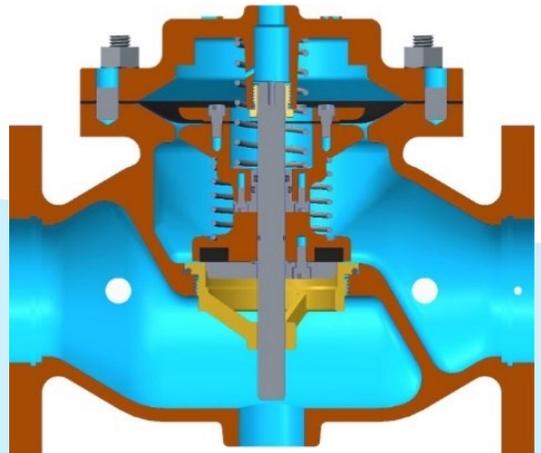

Our factory automation products are on par with latest industrial automation standards. Our range of motion control and machine vision systems are making "Industry 4.0" and "Smart Factory" a reality and re-shaping how things are manufactured in current day and age.

WIRELESS TELEMETRY

We are at the verge of fourth industrial revolution and automated communications or "Telemetry" has become a fundamental requirement. Wireless Telemetry is a process by which measurement data are collected at remote or inaccessible points and wirelessly transmitted to receiving equipment for monitoring.

TECHNICAL SERVICES & RENTAL SOLUTIONS

Our service department is focused at offering several kinds of technical services. From helping you in making temporary liquid or gas flow measurements, to performing verification, installation & commissioning of industrial systems, all the way to rental solutions, we've got you covered! Don't hesitate to reach out to us for assistance.

What types of products we offer?

Inline & Insertion Type Flowmeter

Electromagnetic Flow Meters

Water meters

Ultrasonic Flow Meters

Mechanical Flow Meters

Gear Meters

Turbine Flow Meters

Helical Screw Flow Meters

Coriolis Flow Meters

Explosion Proof Flow Meters

Clamp-On Type Flowmeter

Transit Time Flow Meter

Doppler Flow Meter

Portable & Fixed Flow Meters

Explosion Proof Flow Meters

Open Channel Type Flowmeter

Valves

Flow Control Valves

Pressure Control Valves

Air Release Valve

Gate Valves

Actuators

What types of products we offer?

Pumping Solutions

Vertical Pumps

Horizontal Pumps

Submersible Pumps

Split Case Pumps

Booster Pumps

Pump Repair & Maintenance

Pumping Stations Annual Maintenance Contracts

All type of Pump repairing services.

•PLC Interfaces and Migration

•Solutions

•HMI / SCADA Visualization,

•LV, MCC, VFD Panels

•RTU Telemetry Solutions

Energy Measurement Solutions

Inline BTU Meter

Clamp On BTU Meter

What types of products we offer?

Water Purification Systems (RO)

RO Solutions (Industrial, Commercial and Domestic)

- Solar Energy Solutions
- Pressure Sensors
- Temperature Sensors
- Level Sensors
- Vibration Sensors

Technical Services, Repair & Rental Solutions

- Annual Maintenance Contracts for complete Pumping Stations
- Annual Maintenance Contracts for complete RO Systems
- Flow Testing and Verification Services
- Rental Services
- Instrumentation Repair Services
